Having been a proud member of this organization for just over 20 years—and serving in administrative roles for 18 of those years—I have decided not to continue as president after this term. I will finish out the year, but it is time for new leaders to step forward and guide this wonderful organization into the future.

This is not a goodbye—simply a pause, a chance to take a breather. I remain committed to supporting and assisting the new team as they transition into their roles.

Our upcoming meeting is especially important as we will be nominating new officers. I encourage members to step up, share their talents, and help carry on the proud tradition of service and fellowship that defines our organization.

Thank you, Lou
